CMS & Backend: PHP, Shopify, Node.js, Express.js

DevOps / CI/CD: Git, GitHub, Vercel, Pantheon, AWS Amplify, Dev-Test-Live workflows

Other: WCAG compliance, accessibility, performance optimization, REST APIs, Agile/Scrum, HTML email development, Mongo DB

WORK EXPERIENCE

Trailblazer Solutions   **May 2025 – Present**

Full-stack developer | Contract | Toronto, ON

- Built and optimized **Next.js + TypeScript** web apps, improving load time by **35%**.
- Developed backend features in **Node.js**, integrated APIs, and wrote **unit/integration tests** with Jest.
- Implemented reusable UI components aligned with UX designs, reducing dev time by **25%**.
- Collaborated via GitHub PRs and code reviews, maintaining a 98% sprint delivery rate.

Sysbioz Solutions Private Limited   **June 2021 - July 2024**

Frontend Developer | Ahmedabad, India

- Led development of scalable and responsive **Next.js/React** interfaces for fintech and e-commerce platforms.
- Improved performance via lazy loading, caching, and code splitting, increasing Lighthouse scores by **33%**.
- Built reusable UI components and ensured WCAG-compliant and accessible user experiences.
- Integrated REST APIs and collaborated with backend teams to design and optimize secure endpoints.
- Wrote automated Jest tests, achieving **95% code coverage**, reducing regressions by **40%**.

ACADEMIC PROJECTS

DineSmart Food Ordering Platform (MERN Stack)

- Designed and implemented a full-stack food ordering web app with real-time menu and order status
- Used Redux for state management and Stripe integration for payments
